Easter! EASTER! Easter!

CONFIRMATION SUITS.

Remember We Have a Full Line of

Cheaper than Patches are the Boys Suits We are Selling
this week. On them we are only asking
A LITTLE PROFIT

A Little Profit is not the same as A Little Prophet, yet we are in somewhat the same position as the whale that swallowed Jonah: The whale only wanted to get a little prophet out of it, and we are only trying to get a little profit out of it. Anybody looking at the whale could not see the prophet, nor can anybody looking at our goods see where the profit is.

General Banking Business.

Phoenix, Arizona.

LOCAL BRIEFS.

The Lemon house restaurant is reopened this morning with Mrs. Mingas as proprietor.

Adrian Legue, a native of Mexico, yesterday made declaration of his intention to become a citizen of the United States.

The sewerage company has a force of men at work cleaning out and removing debris that has become lodged in the Center street main.

The Chief, Colorado, Arizona and Three Friends mining claims in the Agua Fria district were transferred to L. W. Morgan yesterday by Nathan Hudson.

A. P. Walbridge sold yesterday for his sister Olive B. Walbridge, two lots on North Fourth avenue to Thomas Miller for \$850 in gold coin. Mr. Miller will begin building immediately.

Company B yesterday decided to hold the military ball at Gardiner's hall. The date is March 29. Tickets have already been printed and other preparations for the interesting event are being rapidly made.

A suit for the foreclosure of a lien was begun yesterday by Joseph B. Morton et. als. against the Salt River Gold Mining company and others. Action was begun by C. G. Linnington against W. A. Dagg and P. P. Dagg to recover on a note for \$1,100.

E. G. Tisdale, of the Colorado Supply Co., of Denver, and a brother O. D. Tisdale of Ottumwa, Ia., both wholesale grocers left Thursday evening after a brief visit. The Colorado man announced his intention of returning later and engaging in business here.

The north bound Maricopa & Phoenix train was thirteen hours late yesterday. Five miles north of Maricopa a plug was blown out of one of the flues and the engine lay dead. Repairs were not completed until late in the afternoon and the train reached Phoenix at 6 p. m. last night.

Dr. Dameron yesterday wrote to the father of Frank Fisher, the young Texas lawyer suspected of insanity, directing him to come here and take charge of young man. In that case the formal charge of carrying concealed weapons will be dismissed. The father is a wealthy and respectable citizen of Collinsville, Texas.

The following transfers of real estate were entered for record yesterday: John M. Evans and wife to J. L. Walker warranty deed to lots 1 and 2 block 25 Neahr's addition, \$600. Geo. L. Richmond and wife to Wm. McCoy lot 17 in block "U" University addition, \$1,000. Samuel B. Stoner and Mary A. Stoner to Frank Fox lot 16 and part of 15 block 9 Glendale, \$1,200.

As Hallie Kent, 15 years old and living sixteen miles from Phoenix upon the lower Yuma road was driving home last night his large brown mare took fright at a piece of paper and ran away, smashing the cart and carrying off the harness. She is a valuable blooded animal and as she had not been caught the boy and subsequently his father who had remained in Phoenix were quite apprehensive.

The committee appointed to raise funds for the New York World writeup reports encouragement. The movement

so far consists in the circulation of petitions to the board of supervisors for the appropriation of \$700, Maricopa county's quota. The petitions have been pretty generally signed by business men and others. A meeting of the board was not held yesterday as was expected so that no action will likely be taken on the petitions until next Monday.

Billy Williams, a well known mining man, was arrested last night for insanity by Assistant Marshal Hickey and Deputy Sheriff Widmer. He was found in a house in the northeastern part of the city by the assistant marshal terrorizing a family. The officer was unable to take him alone and telephoned to the sheriff's office for help. Williams is detained at the courthouse under the care of Chas. Blankenship. Williams' insanity, which Dr. Helm pronounces hopeless, is said to be due to the action of gases in mines where the victim has worked. It is also believed that he is suffering from a tumor on the brain.

Last night as Ben Hanks was coming to town his attention was attracted by a man on all fours running along the road and barking like a dog. Hanks followed him some distance when the man saw him and, rising, ran at him, still barking and snapping. When he got within range Hanks knocked him down, whereupon he turned and ran in an opposite direction. Hanks reported the matter at the sheriff's office and a search will be made for the dog-imitating individual this morning. In reply to a message to the asylum it was learned that two lunatics escaped from the institution last week. This is supposed to be one of them, a Mexican.

PERSONAL.

S. P. Bartley, who has been in the city several days in the interest of a San Francisco tea and coffee house, left last night for the west.

Joe Mayer of Big Box, R. H. Dawson and William Fish of Leadville and F. B. Lehman of Denver, all mining men, are stopping at the Lemon.

Mrs. P. Hickey of Eldorado county, California, arrived in the city last night on a visit to her sons, Philip K. Hickey and Assistant Marshal Hickey. She will spend three or four months in the city.

Mr. E. C. Root of Denver was among last night's arrivals. Mr. Root is one of the heaviest stockholders and bondholders of the Phoenix Light & Power company, and his visit here is made for the purpose of assisting in disentangling the affairs of that institution.

Commercial hotel guests last night were J. F. Clement, city; F. C. Earle, El Paso; A. W. Ballard, San Francisco; E. B. Kurtz, Columbus, O.; J. P. Donahue, El Paso; A. S. Neisser, Chicago; J. C. Johnson, San Francisco; E. C. Root, Denver; C. P. Silkman, Chicago; S. W. Gano, Cincinnati, O.

S. W. Gano of Piqua, O., who spent several days in the city a month ago on his way to Southern California, returned last night. Mr. Gano came west for the purpose of settling permanently in either the valley or California. After a careful inspection of both he decides that the advantages here are superior.

ARID LANDS.

A Probably Favorable
Report on the BillGiving States and Terri-
tories Each 1,000,000Acres—White House Sphinx
and the Seigniorage Bill.The President Has Taken no Man
Into His Confidence as to the
Fate of the Measure.

By the Associated Press.

WASHINGTON, March 23.—The senate committee on public lands will probably soon take up Carey's bill granting to arid land states and territories 1,000,000 acres each. The secretary of the interior endorses the bill and the commissioner of the general land office has written a letter in which he takes an advanced ground in favor of the improvement of the arid regions by placing the work under the control of the various states.

He says: "The building of irrigation works has been found to be very expensive, costing from \$5 to \$30 an acre. Now that the land along the water courses as a rule has been taken the question arises, how can lands difficult and expensive to irrigate be made available to settlement? The people of the states in which arid lands are located would like to see the United States undertake their reclamation. This certainly is impracticable now and it is doubtful whether it will ever be otherwise."

"That additional legislation to induce the reclamation and settlement of arid lands is necessary, cannot be denied and the entire acreage to be reserved under the bill, if all states to which it is applicable should avail themselves of its provisions, would not be as great as each of the several states acquired under the swamp acts. Congress may well try the experiment here proposed. The work is too vast to be undertaken by the general government. Local and community interest under state control will stimulate results with far greater zeal and success. The principal proposition involved in the reclamation and settlement by individuals in small holdings meets my strong approval and this bill seems to me to present a full opportunity for a practical experiment and under proper safe guards. The United States retains the title until the reclamation is accomplished and the land is occupied by actual settlers."

The states and territories to which the bill would apply if it should become a law are Arizona, California, Colorado, Idaho, Montana, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

A Strong Pressure.

WASHINGTON, March 23.—Probably because it was cabinet day and difficult to get the ear of the president there were few congressmen at the White House today, but they have in no degree been relieved of anxiety as to the fate of the seigniorage bill. The situation at the White House presenting one strong feature of novelty in the fact that it appears to be the scene of a bloodless battle just now between the congressmen on one hand, a large majority of whom are urging the signing of the seigniorage bill, and the great commercial interests of the country on the other, for 29 out of every 30 of the communications from them pray for the veto of the bill. These communications by mail and wire are coming from all parts of the country and are not, as might be supposed, altogether of sectional origin. For instance, there were appeals for a veto from Cincinnati, St. Louis, San Francisco, etc.

Still in the Balance.

There are all sorts of stories afloat as to the president's disposition towards the bill and some have gone to the length of reciting that he has not taken the members of the cabinet into his confidence and at the meeting today the subject was discussed from all points of view with a distinct impression in the minds of the members of the cabinet that the president is still open to conviction. He has up to and including next Thursday to make up his mind what to do with the bill and there are indications that he proposes

No. 1 West Washington St.

A BANK CHANGE.

Maj. Lewis Resigns to Go into an Insurance Business.

Maj. R. Allyn Lewis, for seven years connected with the Arizona National bank, and for the past year as assistant cashier, has resigned. The resignation will go into effect on April 1. He has been a very efficient and active official and made many warm friends among those with whom his business relations brought him.

He has abandoned the banking business to associate himself with Territorial Auditor Boone in the general management for the territory of the New York Life Insurance company. Mr. Boone has already built up a business in life insurance second to none in the territory and its proportions have become so great that his official duties prevent him from giving it the necessary attention. Maj. Lewis will devote his entire time and excellent business capacity to its management.

Maj. Lewis's successor in the bank will be Mr. J. J. Sweeney, well known as one of the most expert accountants in the territory, a gentleman of fine business qualification and one in whose integrity the utmost confidence may be placed.
